"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife . . .

(from The American Journal of Numismatics, Vol. 1, No. 1, May, 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases. Returns may be made for any reason, or for no reason. My business depends on attracting repeat customers. It does neither one of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Fell free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA or MASTERCARD.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on their presence. As an example a coin might be described: "1805 S-267 VF20. Sharpness of VF30 with smooth brown surfaces, some light pin scratches where corrosion was removed at K1 reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed it is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC ratings as compiled in Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings, die state, and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgements and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet anyone who has bought coins merely as an investment who has realized a net return upon liquidation. I have, however, met numerous serious collectors, who having formed a discrimination collection over a period of years realized a substantial profit when their collection was ultimately sold. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. As my good friend Jack Robinson (whose collection did very well for him when it was sold in 1989) likes to say: THINK ABOUT IT! When you ask a cat which canary to buy remember his first concern may not be how well it sings. There are may opportunities to do well financially in rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

This has been a great month for early copper. The just completed sale of the C. Douglas Smith Collection of 1802 Cents brought record prices. Bob Grellman has just released the new edition of his Late Date Cent book 1840-1857. (You can order a copy in back). An we anticipate a great EAC convention in Las Vegas in April. (Also, we have had great consignments to the sale!)

Much has been made of the contested offices for EAC officers this year. I'm sure I have my favorites, but my opinion is that any of the candidates running will do a good job. In several instances the rival candidates are both outstanding.

Presidential nominee Jack Wadlington has served as president for several companies and recently retired. He served two terms of duty as an Army officer in Vietnam and was awarded the Silver Star. Coincidentally, he is also on a board of advisors for Vanderbilt University where my oldest son goes to school. Running against him is John Warshawsky, a brilliant young man. He works in the computer business, collects 1794 cents, is an excellent writer, and has contributed a regular column for Coin World.

Running for secretary are Denis Loring and Steve Ellsworth, both well known active club members. Several other regional offices are also to be decided. If you are an EAC member, I urge you to vote. The ballot is in your last issue of Penny-wise or you can vote online.

At the same time, you want to vote for one or more of the coins in this list. Simply call or write and place an order for your favorite. There are great candidates here also. A beautiful 1793 S-2 CHAIN cent from the Andy Hain Collection and a handful of chain cents in lesser grades. Several outstanding Liberty Cap cents including a beautiful run of 94s and 95s. A mint state 1821 N-2 Ex. Halpern and a mint state 1824 N-3 Ex Norweb. There is a nice run of late dates catalogued by Bob Grellman. You may call Bob directly to order these at 407-321-8747. Also, Bob' new book is just back from the printer. 450 pages! Order your copy today!

I will be attending the following conventions:

Mid-year ANA	March 6-10	Jacksonville, FL
Baltimore	March 20-24	
EAC	April 18-21	Las Vegas, NV
Central States	April 25-28	Columbus, OH

1793 S-3 R3- VF25 $15,000.00

1794 S-38 R5+ VF25 $6500.00
This is the famous 1794 S-38 from the Phil Van Cleave Sale. Holed at twelve o'clock on the obverse and repaired with remarkable skill presumably by Stockton. The only evidence of the repair are the twin pinhead size circles of darker toning on either side. The surfaces are smooth and have been recolored a dark chocolate with olive tan highlights. Not for the faint of heart, this coin has been graded anywhere from F12 to EF45. I can say it would sell, even with the repair, easily as a VF/EF coin to a commercial dealer. Thus, I think a grade of VF25 represents the fair value and comparative desirability of this specimen of S-38. Neat pedigree Ex. Darwin Palmer-Phil Van Cleave-Kagin's 2/1/86:5042 ($3,190)- Anthony Terranova-Ted Naftzger-Eric Streiner-SSC 2/93:777-CVM-Tom Reynolds-Walt Husak.

1794 S-40 R5+ FAIR 2 $250.00
A few points sharper but there is an X deeply scratched across the obverse plus patches of moderate pitting on both sides. Only the top portion of the date is faintly visible, but the legends are clear except for ONE CENT, which is missing. Dark olive with medium brown highpoints.

1794 S-43 R2+ F12+ $775.00
Nice glossy light brown. The obverse details suggest a higher grade, but the reverse is a bit weaker as usual. There is a small nick on the rim opposite the tip of the nose and a light rim bruise over the O in OF. Otherwise very nice for the grade. Great pedigree: Lyman Law 9/27/1900:10-W.E. The date is readable, as is two thirds of the reverse legend.

FAMOUS STARRED REVERSE SHELDON-48

1794 S-48 R5 G4+ STARRED REVERSE $8500.00
The obverse is slightly better than the reverse. The obverse sharpness is at least G6 but there are four light rim bruises, strongest at LI, and some light nicks scattered about plus a small planchet chip in the field under the chin. The date and LIBERTY are clear. The reverse is weaker, especially on the right side. There is a rim dent under the right side of the fraction and a lighter one at CA. The stars are clearly visible at the dentils from CA clockwise to the second S in STATES, except for the ones at the rim bump under the fraction. Nice glossy light to medium brown. M-LDS, the reverse lightly buckled across from rim to rim. This is the plate coin used to illustrate the Good-5 grade in Tom Morley's book on the 1794 cents. Pete Smith lists this piece as coin 4C in his book on Starred Reverse Cents. An attractive example, arguably the most famous die variety of the year. Ex. Bowers & Ruddy 1978 ANA Sale, 9/21/78:118-Pine Tree Auction Co. 1979 FUN Convention, 1/5/79:138.

There is a small spot of darker olive toning high on the neck under the earlobe, a very light bruise on the rim left of the hair ribbon, and a tiny rim nick at IC in AMERICA. UNIQUE BRONZED 1834 NEWCOMB 7

1834 N-7 R7 PROOF 45 BRONZEDNET $42,500.00
Sharpness near mint state but there are several very light hairline scratches in the left obverse field. There are areas of extremely faint roughness in the field before the face and on the reverse, clearest under the T in CENT. Recolored glossy chocolate brown varying a couple shades on both sides. The special feature of this cent, other than the extreme rarity of the variety, is that it was bronzed similar to the proof cents of 1829. However, the bronzing was not done with the same level of success and apparently was done after striking rather than before. The result is an uneven application of the bronze layer with excess metal around stars 2 & 3 and the adjacent dentils and a line of excess metal slanting down the neck. A few additional less obvious lumps of bronze can be found on the chin, cheek, date, send spaced around the edge. The fields, while slightly reflective, do not display the mirrors normally found on proof cents, and this may be a result of the recoloring or bronzing (or both). Whatever, the experiment appears to have been limited to this singular example. A classic rarity in the Newcomb series of Middle Date cents, only 8 known total and its bronzed version unique. Called Proof-50 in the Noyes census, Proof 40 in the Bland census, but the number doesn't mean much in this case. Plated in the Noyes book on the cents of 1816-1839. Ex. Peter Mougey-William H. Woodin-Thomas L. Elder #43, 9/1910:184-"Van"-Glenville Coin 10/79-John J. Nicholas, Jr. Superior 2/2/92:582-R.S. Brown, Jr., Superior 1/27/96:597.

The repunching left of the base of the 4 is gone.

Attractive lustrous light steel brown with delicate hints of bluish steel overtone. There is a small spot of darker toning on the throat, two more off the chin, and another at the earlobe. Otherwise this cent is sharper and very attractive. Frosty bluish steel brown with at least 20% of the original mint red remaining on the obverse, 10% on the reverse. EDS. state a. All the hub defects and fine die lines are sharp and the reverse is uncracked. Tied for CC#4. Removed from an NGC slab graded MS62 Red and Brown.

The only marks are a tiny rim nick under star 13 and another at ME, plus a small, very light rim bruise at the second T in STATES. LDS, state f. The date digits are very thin due to die lapping, the obverse fields are covered with fine roughness from die rust, and the reverse is missing only the small crumble at berry #4 to be the latest state. 1849 N-8 R2 MS63+ $2400.00
Choice bright original mint red mellowing to light steel brown on the highpoints, two thirds of the mint color remaining. No carbon spots or contact marks. The best identifying mark is a small spot of steel brown toning between the R & I in AMERICA. The only thing keeping this cent from a higher grade is a shallow low spot covering the neck, as struck. Otherwise this cent is a gem. M-LDS, state c. The obverse fields are smooth and slightly reflective. The lines at the dentils near stars 2 & 3 are dull but still visible. Finest known by a small margin over a couple other examples that have far less mint color.

1849 N-14 R3- MS63 $895.00

Glossy medium brown and chocolate. There is a tiny tick on the chin, a horizontal nick over the left top of T in CENT, and a small patch of darker steel toning over the E in AMERICA. Extremely rare terminal die state (TDS), state d, with a strong rim cud break from right of star 12 down to below star 13. CC#3 overall but second finest of only 7 known in the terminal state, and most of those are in low grade. A very attractive and important cent. Ex. Bob Vail, Superior 9/7/97:788.

1849 N-26 R3 AU58 $875.00
Sharpness mint state with a pair of small, light rim nicks at star 1, a dull nick in the field right of the inner curl, and a thin nick under N in CENT. The obverse is covered with tiny planchet chips where lint from a polishing or cleaning cloth came between the obverse die and the planchet, as struck. The reverse, however, is smooth and free of these imperfections. Lustrous bluish steel brown with traces of underlying faded mint red on both sides.MDS, state b. The lines at the dentils near stars 3 & 4 are gone. The coronet over LIB is softly struck, as usual. CC#3. Ex. Doug Bird 9/94-R. S. Brown Jr., Superior 6/1/98:634.

Softly struck on the shoulder and opposing leaves under OF, but the strike is nice and sharp elsewhere. M-LDS, state d. The lines at the neck are weak, the line at NI in UNITED is gone, and the small rim cud break under 849 is visible. Tied for CC#7.

1850

1850 N-21 R2+ MS63+ $650.00
Mint red mellowing to bluish steel on the highpoints, at least half the red remaining on the obverse and 90% on the reverse. No spots or nicks. The only mark is a thin streak of golden toning joining stars 12 & 13. LDS with the two rim cuds on the reverse, Newcomb's old N-10. Most likely from the hoard dispersed by Abe Kosoff many years ago, but this is a particularly nice example.

1851

Brown, Jr., Superior 9/30/86:1277-Dr. Thomas Chalkley, Superior 1/28/90:1081- J.R. Frankenfield, Superior 2/1701:1643.

1851 N-26 R5- MS62+ $975.00
The obverse is slightly faded mint red mellowing to light steel brown on the highpoints, 75% of the original color remaining. The reverse has generous traces of faded underlying mint color peeking through lustrous light steel brown toning. Would rate a higher grade if not for a shallow carbon spot on the E in ONE. Otherwise this cent is very choice. LDS, state c, with the two small points down from the main curl over the inner curl now lapped away. Removed from PCGS slab graded MSA64 Red and Brown. CC#3. Ex. 1997 EAC Sale:401-Stuart MacDonald-unknown-Heritage 6/01:5430.

ONE OF ONLY FIVE KNOWN

1851 N-44 R7+ G5 $3500.00

1852

1852 N-8 R1 MS64+ $1650.00
Superb mostly faded red with brilliant proof-like surfaces. The fields are mirrored like a proof and the strike is quite sharp but this is a business strike. A beautiful cent with no distractions.

1853

1853 N-1 R2+ AU55 $345.00
Glossy light steel brown with attractive underlying mint luster covering both sides and traces of mint red in protected areas. Sharpness closer to mint state with a shallow planchet flake touching the right edge of the outer hairbun and a spot of crud on the bottom of the star above. MDS, state b. Removed from an NGC slab graded MS63BN. Ex. Superior 9/21/98:1782.

1853 N-8 R3 MS60 $675.00
Nice lustrous light steel brown with peeps of faded mint color in protected areas of the reverse. There are a few tiny ticks on the chin and the dentils over TE in STATES are weak due to a shallow depression in the planchet before striking. M-LDS, state b. The lines at the dentils are gone and the fields are satiny. Tied for CC#6. Ex. 1998 EAC Sale:455-Heritage 6/01:5432.

1853 N-11 R2- MS60 $425.00
Attractive lustrous light steel brown with bluish steel overtones and generous traces of faded mint red remaining in protected areas, especially on the reverse. 1854

1854 N-3 R1 MS63 $550.00

1855

1855 N-4 R1 EF40 $210.00
Ten points sharper with an old, light pinscratch from just under the earlobe to the bottom of the inner hairbun. This scratch is mostly hidden in the hair and it doesn't jump out at you. Glossy light to medium brown with darker olive brown toning on the reverse highpoints. Scarce LDS, state f, with four rim cud breaks at STATES. The cuds are bold on this example. Tied for CC#9 of about two dozen known in this die state. Ex. Superior 2/7/2000:2350.

1855 N-10 R1 MS62 $495.00
ITALIC 55. 12 STAR OBVERSE. Light greenish olive with delicate overtones of bluish steel and sea green and undertones of rose and violet peeking through. Possibly dipped long ago, but still quite attractive. The fields are smooth and slightly reflective, nearly prooflike. EDS, state b, with star 6 very weak due to a clogged die, the so-called 12 star obverse. Star 1 is starting to weaken as well due to a similar die clog, but it remains visible. An attractive example of this popular die state.

1856

1856 N-2 R1 MS60 $225.00
Glossy medium brown with traces of mint red in protected areas. The surfaces are covered with attractive satiny mint luster created by die flowlines. A good looking cent. E-MDS. Tied for CC#7 overall and third finest known of this die state. Ex. Lester Merkin- R.S. Brown Jr.-Superior 9/30/86:1425 (as N-2)-Del Bland-Wes Rasmussen-Superior 2/8/98:84.
